WORK EXPERIENCE

2025–Present | SOFTWARE DEVELOPER | Visaflow

- Designed and prototyped app redesign in Figma to boost engagement and ensure responsive UI.
- Defined long-term strategy for scalable and maintainable frontend and backend.
- Led refactoring initiatives and set technical guidelines for the new platform architecture.

2020–2023 | FULL STACK DEVELOPER | Lifull connect

- Developed real estate web applications.
- Designed and implemented frontend features and backend functionalities.
- Created RESTful APIs and managed databases.
- Ensured quality through automated testing (PHPUnit, RSpec, Jest).
- Practiced TDD, testing strategies, clean code and hexagonal arch.
- Applied Agile methodologies: active participation in sprint planning, daily stand-ups, and retrospectives.

2017–2018 | UNITY DEVELOPER | Seidor S.L.

- Developed Unity 3D applications in C#.
- Designed and implemented UI interactions.
- Conducted manual testing of VR apps and reduced reported bugs.
- Researched and adapted new tools and frameworks, improving team efficiency.
